## Pre-proposal statement of inquiry – CR-101

- **Chapter 173-400 WAC- General regulations for air pollution sources**

The federal EPA recently changed the federal rules for New Source Review. Ecology will restructure Chapter 173-400 WAC to accommodate the new federal rules, insuring conformance with state law. If Chapter 173-400 WAC successfully addresses the federal rule changes, sources should have greater flexibility in permitting and the environment should remain protected.
